Subject: Apple Manor Subdivision Waiver Request (WAIV-16-005699)

Ladies and Gentleman:

My farm is at 2336 Leeds Manor Road and backs up the G. Richard Thompson Wildlife Management Area. My primary view to the East overlooks the Apple Manor Subdivision including The Goose Creek Mountain Range/Brushy Mountain. The elevation of my farm ranges from around 900' to 1400' plus and as such I overlook much of the proposed access road, ridgeline and property at issue. The unlawful subdivisions owned by Zand78 LLC and Demavand9 LLC and controlled by a New York real estate investment should be vacated per Judge Parkers decree.

I am totally opposed to the proposed waiver request and respectfully ask that you deny it.

Thank you for considering my opinion,

John Everson
