Subject: Apple Manor Subdivision Waiver

Ladies and Gentlemen -

My wife and I live at 2294 Leeds Manor Road, across the road from the Apple Manor subdivision. Our back property line is the G. Richard Thompson Wildlife Management Area. We overlook the proposed access road and parts of the property at issue.

We write to voice opposition to the proposed waiver for the Payandeh subdivision. The additional lots would overburden the existing roads and result in houses and other structures along the ridge of mountains which form some of the most majestic views along Route 17 and Leeds Manor Road.

We respectfully request that the Board of Supervisors keep its commitment to preserving the unique environmental resources and rural landscape that brought so many of us to live in Fauquier County and which citizens from around the world who visit treasure. There is no compelling reason or public interest to vote in favor of the proposed waiver. Indeed, to do so would be against the public interest.

Thank you for your consideration.

Sincerely, Mark and Barbara Augenblick
